

Spacecraft Attitude Dynamics

TEAM EVALUATION FORM

This form serves the purpose of providing a peer evaluation of the performance of the team in completing the project assignment. It should be completed individually by all team members. Recommendations for writing the evaluation are the following: be honest but diplomatic, support your evaluation with data, do not let your personal relationships affect your judgment.

NOTE: The evaluations below should be made by using the following grades:

- **Excellent:** the contribution to the project has been excellent and outstanding (this judgment should be considered as *exceptional*).
- **Satisfactory:** the contribution to the project has been fair, as normally expected.
- **Sufficient:** the contribution to the project has been acceptable, although below the average of the team.
- **Insufficient:** the contribution to the project has been occasional, not up to standard.

Please evaluate the work done by the team members.

Team number	291
-------------	-----

Team member	Contribution to project (E; Sa; Su; I)
Zannoni Samuele	E
Sferlazzo Davide	E
Lugli Arianna	Sa
Luca Vollono	Sa

In case of **Insufficient** contribution, please give some motivation:
